- GST Registered.
- Senior Member at IEEE
- Authorised Google Partner
- Official Godaddy Pro Member
- Zoho Partner for Zoho Books and E-Commerce Websites
- ISO 9001:2015
- Electronics & Computer Software EPC Registered

SOME OF OUR CLIENTS

- Corporate
- Government recognised Universities, Schools, Colleges.
- Clients from Asia, USA, Dubai, Africa Regions.

QUANTUM AI

QUANTUM COMPUTER & AI SOLUTIONS

Precision. Intelligence. Quantum Resilience.

At **Nandyavart Consultancy Services,** we are readily available to provide the cutting-edge technology of Quantum AI. We provide the strategic architecture your enterprise needs to navigate the transition into a quantum-powered world.

Next-Gen Collaborative Ecosystems

Building the platforms of tomorrow.

- **Quantum Software Collaboration:** We offer to collaborate with your side to provision Quantum Computing based solutions. Just let us know your requirements.

- **Custom Agent-to-Agent (A2A) Protocols:** We design autonomous AI agents that communicate securely with one another to manage supply chains, schedule logistics, and execute complex workflows without human intervention.

Quantum-Safe Security

Future-proofing your digital sovereignty.

The "Quantum Apocalypse" (Y2Q) is a mathematical certainty. We protect your assets before the threat arrives:

Service	Method	Benefit
PQC (Post-Quantum)	Advanced Lattice Math	Secures software/web traffic against quantum decryption.
QKD (Quantum Key)	Particle Physics	Uses photon-based keys for unhackable hardware-level security.

AI-Based Development

Turning sensory data into actionable intelligence.

We specialize in high-fidelity computer vision and biometric systems:

- Face Recognition & Biometrics: High-accuracy identity verification for secure facilities and digital access.

- Intelligent OCR: Our Optical Character Recognition systems don't just "see" text; they understand context, converting complex invoices and legal documents into structured databases.

Intelligent Workspace Solutions

Harnessing the power of LLMs to redefine productivity.

- Gemini for Google Workspace: We integrate Gemini's reasoning into your daily apps, turning Docs, Sheets, and Gmail into an automated powerhouse.

- Custom Gemini Software: We don't just use AI; we build with it. Our team develops bespoke software that embeds Gemini's cognitive abilities into your unique business logic.

- NotebookLM Implementation: Revolutionize your internal research. We set up grounded AI environments where your data remains yours, providing instant insights, citations, and audio summaries of your proprietary knowledge.

QUANTUM & AI PORTFOLIO

Live proof of our Quantum-AI capabilities.

- **QuantumComputingCode.com:** A specialized platform that bridges the gap between natural language and quantum logic. It allows developers to generate functional quantum code (Q#, Qiskit, Cirq) using intuitive AI prompts for Enterprises and Education.
- **Technology:** Quantum code platform, AI, Gemini

- **WishGeneratorAI.com:** A creative showcase of our Generative AI progress. This platform uses custom-tuned models to generate hyper-personalized celebratory messages and visual content for a global audience.
- **Technology:** AI, Gemini

OUR EXPERTISE
We expertise on a wide range of I.T. solutions:

- Evergreen static websites
- Google Cloud / Google Workspace for Business and Education solution (India & foreign Countries)
- Mobile Apps (Android)
- Responsive Websites
- Custom coded Unique Dynamic Website solutions
